## **Inspection Scope and Limitations**

The inspection and written report includes a comprehensive visual inspection of readily accessible systems and components of the property described above and provides a descriptive listing of significant components and a description of any deficiencies found. The Client can realistically expect to gain a general sense of the material condition of the house and knowledge of any significant safety conditions that can be discovered under the scope of this inspection.

Areas that are not readily accessible or visible to the Inspector are not included in this inspection or report. Conditions that can only be discovered by invasive methods, removal of materials or dismantling of systems are not included. The Inspector is not required to move debris, furniture, equipment, carpeting or other items, which may impede access or limit visibility, or enter any area where the opening is less than 24 inches high and wide or as the Inspector deems unsafe. The Inspector is not required to operate systems or equipment in any way beyond that of a homeowner engaged in the routine operation or maintenance of items in the home.

The inspection is not technically exhaustive nor will the Inspector determine the life expectancy, strength, adequacy, effectiveness, or efficiency of any system or component. The Inspector does not use all of the special equipment, or inspect to the same level of detail, that a specialist technician would. Therefore it is possible that a second opinion by a specialist will reveal items that the Inspector does not discover. If the Inspector recommends consulting other specialized experts, any such consultation shall be at the Client's sole discretion and expense.

**This is not a code inspection.** The Inspector does not report on compliance or non-compliance with any building, electrical, mechanical or plumbing codes in effect at the time of construction or this report. The Inspector does not conduct tests for water quality or quantity, radon, asbestos, insect infestation, mold, lead paint or any other tests needed for closing. The Inspector does not test or determine the presence of environmental hazards or toxins.

The Inspector will not inspect or report on cosmetic/aesthetic defects which include but are not limited to the following: foggy window panes; scratches; small holes; defective carpet; typical minor cracks found in concrete, stucco, asphalt; painting requirements when structural damage is not imminent and other minor defects which have no bearing on the structural integrity of the property. The inspection does not include appliances that are not conveyed in the real estate contract or equipment such as, but not limited to, swimming pools, saunas, spas, the structures relating to those items, docks, water softeners, water treatment systems, playground equipment, fences, awnings, central vacuum systems, wood stoves, space heaters, solar heating systems, wells, well pumps, septic systems or other water storage devices.

**Do not consider this inspection to be an implied warranty that any or all systems and material conditions will be problem-free. Deficiencies and defects, which are latent or concealed, are excluded from the inspection.**

This inspection is not a substitute for any property disclosure statements required by law or lending institution; nor does it substitute for or replace any disclosure obligation of the seller.

**The inspector will not offer or give advice on repair methods, estimate costs of repair or suitability of property for purchase. The Inspector has no present or contemplated future interest in the property to be inspected.**

**Inspection Standards**

The inspection will be performed in compliance with accepted standards of practice and performance, and conforms to the standards established by the VA State Board of Home Inspectors. (copy provided upon request).

If you would like to utilize the Mediation or Arbitration services of another dispute resolution provider other than one of those so stated please submit your recommendation to us for our consideration. If the dispute is submitted to Binding Arbitration, the decision of the Arbitrator appointed there under shall be final and binding and the enforcement of the Arbitration Award may be entered in any Court or administrative tribunal having jurisdiction thereof.
